

bareMinerals®

## What makes bareMinerals make-up so special?

Wearing bareMinerals make-up feels as if you are not wearing any make-up at all, yet the coverage is flawless.

- free of preservatives
- talc
- oil
- waxes
- fragrances

The bareMinerals make-up range is very wide: from award winning foundation to mascara and lip gloss. “Get Started” Kits are a great way to start and as part of the kit there is a useful DVD giving advice and tips on how to use the make-up

The full range of testers available at Sentosa gives you the opportunity to try the colours and feel the make-up on your skin. Make-up lessons, make-overs, tips and advice are given and you can also purchase bareMinerals products at competitive prices.

## Foundation

There are two types of bareMinerals foundation.

1. “Loose” Original and Matte finishes, supplied in pots with a “click, lock, go sifter”
2. “Ready” supplied in a compact.

Both types of foundation are applied with brushes and buffed onto the skin giving different finishes.

### Original SPF15 Foundation

- Naturally luminous finish
- buildable, sheer to full coverage
- Water resistant
- 8 hour wear

### Matte SPF15 Foundation

- Naturally matte finish
- Reduces shine
- Minimises pores
- 8 hour wear

### Ready SPF20 Foundation

- Natural finish
- medium to full coverage
- added SeaNutritive Mineral Complex hydrate the skin
- 12 hour wear

***“BareMinerals Original SPF15 Foundation looks like a powder, feels like a cream and buffs on like silk, giving a natural luminosity”***
